

THE HUMAN FACTORS ENIGMA

4th International Human Factors Conference 03.-04.09.2020

Hilton Munich Park
Munich, Germany

The mystery behind the human being.

The theme of our fourth conference is “The human factors enigma”. Since 50 years, the aviation industry and other industries train and teach human factors and crew resource management. One would think that we know what we are talking about, what to train and have all the same understanding, all the same tools, and the acceptance of the topic is fully there. It is no surprise that we can still improve and learn something new.

Some of the conference topics are:

- How to train our brain
- Motivation, Frustration and Resilience
- Critical thinking
- Human Factors and leadership in the most extreme emergency
- Human cooperation
- Empathy
- The fallacies of work-as-imagined
- Training and learning of the future

One price: the conference with the all-inclusive benefit

Do not miss the opportunity to attend this high profile event in one of the best-placed hotels in Munich. The participant package not only **includes the conference**, comprising **8 speeches and panel discussions** from internationally renowned speakers, but also a **networking dinner, hotel accommodation for one night and all meals and drinks.**

BE PART OF OUR FOURTH
INTERNATIONAL **HUMAN FACTORS**
CONFERENCE
